

EMERGENCY DEPARTMENT BILLING

H+Plus Key Features and Benefits for Emergency Departments:

- + Electronic Downloading of Hospital Registration
- + Electronic Downloading of Hospital Reports
- + Electronic interactive charge posting with simultaneous viewing of the reports
- + Medical Necessity Testing
- + Paperless Work Queues
- + Dashboard Analytics
- + Electronic Claims and Remit Posting
- + Scanned Document Imaging
- + Accurate Monitoring of Physician Productivity by:
 - + ED Specific CPT codes
 - + RVU count per hour
 - + RVUs per patient
 - + Number of RVUs billed
 - + Number of shifts worked
 - + Patient Case Counts
 - + Number of patients per shift
 - + Patient count per hour
 - + Billing dollars per hour
- + Automated PHI Auditing Systems
- + Logical Design for ease of use and minimal training requirements
- + Based on "Rules of Billing" tables that are easily changed by the client when required for special situations.
- + Extensive software scrubbers and error checking processes work to correct claims data before transmission thereby reducing rejections, and lowering outstanding days in A/R.
- + Simple one-time setup
- + Complete user control of charges progressing to the billing system. Charges can be reviewed, updated or corrected before claims processing.

Healthpac Computer Systems, Inc. has developed medical billing software specifically designed for ED Billing. We assure an increase in collections when you install our software solution for Emergency Department Billing.

With over 28 years of experience in working with Emergency Physicians nationwide, Healthpac's H+Plus Professional is designed to specifically handle your needs. Powerful "scrubbers", review a claim prior to printing or submitting electronically to help ensure payment the first time a claim is submitted.

Healthpac has been a pioneer in the healthcare billing community since 1981. Our breakthrough billing solutions employ strategic managing to the model and closed loop processes. We automate the management side of a company and not just the clerical side. Our execution of a paperless work queue environment frees users to produce two to three times more than they would normally.
